RE: TRAFFIC IMPACT ANALYSIS

Dear Mr. Roy:

The Pierce County Highway Department (PCHD) is aware of the proposed digester in the industrial area of Ellsworth south of USH 10 and east of CTH C. Previously we spoke about a Traffic Impact Analysis (TIA) that would be conducted during the planning for the project. PCHD would like to confirm that the intersection of USH 10 and CTH C would be captured as part of the TIA. Additionally, if improvements were suggested in the TIA, will there be language that would specify the process to implement those improvements? We would like to confirm that PCHD and the Wisconsin DOT would be part of those discussions. I can provide the contact information for our District Traffic Engineer to whomever may need it.

CTH C is currently not posted during spring thaw and is suitable for legally loaded vehicles.

Please continue to keep us informed and let us know how we can assist going forward with this project.

Sincerely,

Chad A. Johnson, P.E.
Pierce County Highway Commissioner

CC: N. Gulbranson, Chair
